List of abbreviations	3
Foreword.....	4
Chapter 1. ELECTRONIC HEALTHCARE: SYSTEMS AND PEOPLE	6
1.1. Electronic Healthcare: main notions	6
1.2. Medical professional and patient.....	8
1.3. Evaluation of human factor in healthcare.....	9
1.4. E-Health in COVID-19 pandemic	10
Chapter 2. E-HEALTH COMPONENTS	12
2.1. Hospital Information Systems	12
2.2. Electronic Health Records.....	15
2.3. Laboratory information systems.....	18
2.4. Electronic prescription	21
Chapter 3. E-HEALTH SUPPORTED SYSTEMS	22
3.1. Telemedicine	22
3.2. Platform for E-Health based on GRID layers.....	24
3.3. Picture archiving and communication systems	25
3.4. Decision support systems for medical diagnosis.....	29
Chapter 4. DATA PROTECTION IN E-HEALTH	33
4.1. Medical data: standards.....	33
4.2. Medical personal data protection	34
4.3. Data protection in HIS and EHR.....	35
4.4. Medical data protection: international legal aspects.....	38
Chapter 5. PATIENT RIGHTS IN E-HEALTH.....	42
5.1. E-Health and human rights.....	42
5.2. The right to health in E-Health: international legal aspects	43
5.3. E-Health in the European region through the lens of human rights	48
5.4. Patient rights in E-Health	51
5.5. Rights to access medical information: technical aspects	53
5.6. Patient access to EHR: legal aspects	53
Chapter 6. ARTIFICIAL INTELLIGENCE IN MEDICINE	56
6.1. Artificial intelligence: what it has achieved	56
6.2. Smart healthcare: what is it	57
6.3. Artificial intelligence recognizes medical images.....	59
6.4. Data protection and patient rights in Smart healthcare.....	62
CONCLUSION	63
Bibliography	64
